Dear resident/business owner

**Shortland to Sandgate project**

Roads and Maritime Services (RMS) has partnered with Thiess Pty Ltd to complete the Shortland to Sandgate section of the Newcastle Inner City Bypass. As part of the construction of the Sandgate Road interchange work, Wetlands Place will be realigned. The location of the work is shown over the page.

As part of the realignment, temporary line marking and a series of safety barriers will be installed on Wetlands Place adjacent to the work area for the safety of the construction team and motorists. This is shown in the sketch below.

The project’s standard working hours are between 7am and 6pm Monday to Friday and 8am to 1pm on Saturdays. The work will be completed within these hours.

The installation of safety barriers and temporary line marking is scheduled to take place on **Wednesday 14 August 2013** (weather permitting).

The work will involve the use of a mobile crane truck and loader. Traffic control will be required for the work. Motorists travelling along Sandgate Road and Wetlands Place may experience short, intermittent delays during the work, however resident access will be maintained. Nearest residents may experience some intermittent noise impacts.
To the householder

More information about the work can be obtained and complaints may be lodged by contacting the project information line on 1800 334 541 (24 hours).

The diagram above shows the location of the proposed work.

For enquiries, complaints and further information about the project, please call the toll-free information line on 1800 334 541 (24 hours) or visit www.rms.nsw.gov.au.

Yours faithfully,

Graham Nuss
