The NSW Government is investing $76 million to upgrade Campbelltown Road between East Town Centre Road and the newly realigned Macdonald Road, Bardia to make journeys easier, faster and safer.

Roads and Maritime Services has started work on the Campbelltown Road upgrade – Stage 1 between East Town Centre Road and the newly realigned Macdonald Road, Bardia.

The project is being jointly funded by the NSW Government Housing Acceleration Fund and Landcom (previously known as Urban Growth NSW).

Roads and Maritime has awarded the major construction contract for Stage 1 to Burton Contractors Pty Ltd. Stage 1 is expected to be completed by the end of 2020.

How will construction impact the community?

The Campbelltown Road upgrade is a significant project and there will be some disruptions to the community including:

- noise and vibration
- detours and re-routing
- traffic delays and disruption
- some night work.

Given the limited space along the road, it will be necessary to carry out some night work to ensure the safety of motorists and workers and minimise the impact on the road network.

Roads and Maritime and our delivery partner, Burton Contractors, will aim to minimise the impact to the community wherever possible. The project team will work closely with affected residents throughout construction and continue to notify the community about upcoming work.

Benefits

- Improved safety for motorists by:
  - Building new intersections with traffic lights to improve traffic flow and road safety
  - Providing a central median to separate traffic
  - Providing turning lanes at intersections

- Improved safety for cyclists and pedestrians by providing an off-road shared path

- Improved travel times

- Access to the Edmondson Park town centre from Campbelltown Road

- Improved access and travel times for road freight in Sydney’s south west.

January 2019

Key features of the project

- An upgrade from a generally two lane to a four lane divided road with a wider median
- Installing three sets of traffic lights at the realigned Macdonald Road, at Soldiers Parade and at East Town Centre Road
- An off-road shared pedestrian and cyclist path on both sides of Campbelltown Road
- Designated bicycle and pedestrian crossings at traffic lights
- Six new designated turning lanes.

Site compound

The site office has been established and is located on Zouch Road next to the Endeavour Energy Zone substation. The site will also be used for temporary stockpile and storage of:

- Spoil and road waste materials for later use
- Road surface materials
- Landscaping materials.

Upcoming work

Our work the next six months will include:

- Building the new westbound traffic lanes
- Installing water, electrical, gas and communication lines
- Installing stormwater lines and pits.
- Designating bicycle and pedestrian crossings at traffic lights
- Six new designated turning lanes.

Campbelltown Road upgrade – stage 1

Noise

To reduce impact to the community, noisy construction will be managed according to Roads and Maritime Environment Noise management standards. In addition, local residents and businesses will be given advance notice of any planned noisy or night work.

Construction hours

Work is being carried out during standard construction hours between 7am and 6pm Mondays to Fridays and 8am and 1pm on Saturdays, weather permitting. We will notify the community in advance of any work outside these standard hours.
