Project Update – Improvements to the intersection of Victoria Road and Bowden Street, Ryde

Rocks and Maritime Services | February 2018

The NSW Government is funding this project as part of its $300 million Urban Roads Pinch Point Program, which aims to reduce delays, manage congestion and improve travel times on Sydney’s major roads.

Roads and Maritime Services is making improvements to the intersection of Victoria Road and Bowden Street to help improve traffic flow, travel times and safety for all road users, particularly during peak periods.

We have included a map to show the location of the work.

Our work schedule

We will complete the work in two stages. For the first stage, we will be on site for **eight night shifts** between **Tuesday, 27 February**, and **Thursday, 15 March 2018**, weather permitting. Our work hours will be between **8pm** and **5am** from **Sunday** to **Thursday**.

We will update you on stage 2 work in March 2018.

How will the work affect you?

Our work will have minimal impact on road users and local residents. There will be no impact to nearby property access, and minimal noise associated with this work. We will do everything that we can to minimise the impact of the work, including completing noisier tasks by **11pm**.

We have arranged the first stage of work so you will not be affected by noisy work for more than **two** nights in a week or for more than **six** nights in a month.

Temporary traffic changes

There will be temporary traffic changes during our night time work to ensure the work zone is safe. Speed limits during night time work will be reduced from 60 kilometres per hour to **40 kilometres per hour**. Please keep to speed limits and follow signs and traffic controllers’ directions. Lane closures during night time work are unlikely to affect travel times.

A pedestrian crossing will be available at all times when the work is in progress and arrangements in place to ensure pedestrians can cross safely.

For the latest traffic updates, you can call 132 701, visit **livetraffic.com** or download the Live Traffic NSW App.
